PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE Patents and Designs

Special Notice

Calcutta, the 5th April 1958

The following Groups of Abridgments of Patent Specifications have been published and copies thereof are available for sale with the Manager of Publications, Civil Lines, Delhi at Re. 1/- per copy.

Copies are also available for sale at the Counter of the Government of India Book Depot, 8, Hastings Street, Calcutta, on cash payment.

Group II—Sanitation

(Containing Abridgments of Patent Specifications between Nos. 35,001 and 40,000).

Group III—Chemical Compounds, inorganic

(Containing Abridgments of Patent Specifications between Nos. 35,001 and 40,000).

Application for Patents

The dates shown in crescent brackets are the dates claimed under Section 78A of the Act.

20th March 1958

63488. L. S. Krishnan and A. S. R. Somayaji. The production of synthetic timber including soft and hard-boards and all moulded forms utilizing cocoanut husk as peeled and/or cocoanut fibre (coir) wholly with or without pits and with or without binding agents.

63489. May & Baker Limited. Improvements in or relating to pharmaceutical compositions.

63490. May & Baker Limited. Improvements in or relating to heterocyclic compounds. (22nd March 1957).

63491. Styrene Products Limited. Process for the preparation of expandable thermoplastic material. (22nd March 1957).

63492. E. Uher. Automatic variable speed drive.

21st March 1958

63493. British Telecommunications Research Limited. Improvements in or relating to telecommunication systems (13th March 1956). (Divisional date 27th October 1956).

63494. British Telecommunications Research Limited. Improvements in or relating to telecommunication systems. (13th March 1956). [Divisional date 27th October 1956].

63495. The Dow Chemical Company. Etching.

63496. Union Carbide Corporation. Electric arc welding. [Addition to No. 57140].

63497. Universal Oil Products Company. Improvements in and relating to the alkylation of aromatic hydrocarbons.

63498. The Director, Indian Institute of Science, Bangalore. A highly sensitive water supply meter for measurement of flow in closed conduits.

63499. General Motors Corporation. Free piston engine starter.

63500. C. W. Cheney and Son Limited and C. W. Cheney. Improvements relating to hasp fastenings. (22nd March 1957).

63501. Ciba Limited. New acylamino-compounds of the pyridine series and process for their manufacture.

22nd March 1958

63502. Daver and Company. Attachment for the speed and spinning frames of spinning machines for protecting the roving bobbins.

63503. The Orient General Industries Ltd. Improvements in or relating to electric fans.

63504. Brown & Williams Tobacco Corporation. Improvements in or relating to method of separating tobacco leaf and apparatus therefor.

63505. Satyendra Nath Sett. Tower bolts.

63506. Dunlop Rubber Company Limited. Improvements in pneumatic tyres. [Addition to No. 61074].

63507. Goodyear Pumps Limited. Improvements relating to rotary engines, pumps and the like. (22nd March 1957).

63508. The Goodyear Tire & Rubber Company. Improvements in molding inflatable articles.

63509. The Goodyear Tire & Rubber Company. Improvements in tire retreading.

63510. The Goodyear Tire & Rubber Company. Improvements in electronic temperature regulation for vulcanizing tires.

63511. The British Oxygen Company Limited. Valve means. (24th April 1957).

63512. Imperial Chemical Industries Limited. Isolation process. (5th April 1957).

24th March 1958

63513. C. Gupta and K. Gupta. A cottage spinning unit.

63514. E. I. Du Pont De Nemours and Company. Improvements in or relating to the extraction of tungsten from tungsten-containing materials.

63515. British Telecommunications Research Limited. Improvements in or relating to transformers for use in telecommunication systems. (25th March 1957).

63516. J. Rothenberger. Washing machine with at least two horizontal drums. (26th March 1957).

63517. Corn Products Refining Company. Screen centrifugal pump.
63518. The English Electric Company Limited. Improvements in and relating to leadscrew devices and their application in electrical switchgear. (3rd April 1957).
63519. Unilever Limited. Improvements in or relating to methods of and means for the stacking of articles into layers. (27th March 1957).
63520. K. W. Foster. Improvements in and to air conditioning units.
63521. The British Thomson-Houston Company Limited. Improvements relating to low frequency electrical generators. (25th March 1957).
63522. A.G. Heron. Insulated pipe defrosting for a forced air evaporator. (2nd April 1957).
63523. E. I. Du Pont De Nemours and Company. Shaped structures and process for their production.
63524. H. W. M. King. Improvements in or relating to bus-bars and similar electrical power conducting assemblies.
63525. Cable Belt Limited. Improvements in or relating to conveyors. (25th March 1957).
63526. Ciba Limited. New esters of an active substance from suprarenal glands and process for their manufacture.
63527. Ciba Limited. New carbamic acids and derivatives thereof and a process for their manufacture.
25th March 1958
63528. K. Singh. Improvements in or relating to bed-steads.
63529. Mrs. Rajah Komala Devi. Improvements in or relating to sruthi boxes.
63530. N. V. De Bataafische Petroleum Maatschappij. Polyvinyl chloride compositions and process for preparing the same.
63531. British Nylon Spinners Limited. Improvements in or relating to the twisting of continuous filament yarns. (30th March 1957).
63532. Imperial Chemical Industries Limited. Improvements in or relating to igniters.
63533. Imperial Chemical Industries Limited. New monoazo dyestuffs. (23rd April 1957).
63534. Casablancas High Draft Company Limited. Improvements in creel bobbin holders for spinning or preparing machines. (12th April 1957).
63535. Acheson Industries, Inc. Improvements in or relating to coating and coating compositions comprising polytetrafluoroethylene. (17th February 1958).
63536. J. R. Geigy A-G. Substituted 3,5-dioxo-tetrahydro-1,2,6-thiadiazine-1,1-dioxides.
63537. Tecalemit Limited. A diaphragm-operated pressure-reducing valve for use with fluid distribution systems. (1st April 1957).
63538. Dowsett Holdings Limited. Improvements in separating devices. (2nd April 1957).
63539. T. Yoshida. Slide fastener chain coiling apparatus.
63540. The British Thomson-Houston Company Limited. Improvements relating to low frequency electrical generators. (27th March 1957).
63541. The British Thomson-Houston Company Limited. Improvements in and relating to winding and haulage equipment. (28th March 1957).
63542. The British Thomson-Houston Company Limited. Improvements relating to control equipment for nuclear reactors. (1st April 1957).
63543. Spofa, Spojene Farmaceuticke Zavody. narodni podnik. Preparation of a new type of quaternary salts.
63544. Gluconate Limited. Process for the preparation of an anti-rheumatic.
63545. G. G. Primakoff. Hinges for doors, windows or the like panels.
63546. G. G. Primakoff. Venetian blinds.
63547. G. G. Primakoff. Awning or the like.
63548. S. Stokland. Apparatus for distributing fertilizer or other granular material.
63549. "GANZ" Arammerogyar. Three phase induction meter.
63550. Organon Laboratories Limited. New 19-nor-steroid compounds and process for the preparation thereof.
63551. S. N. Sinha. Improvements in or relating to gear mechanism for feed units.
63552. Ciba Limited. New N-acyl-sulphonamides and a process for their manufacture.
26th March 1958
63553. C. A. Anvindyamanik. Improvements in or relating to food carriers.
63554. Lodge-Cottrell Limited. Improvements in or relating to an electrostatic process for breaking down emulsions and for the removal of suspended matter from liquids. (15th January 1958).
63555. Mather & Platt Limited. Improvements in multi-colour printing machines. (3rd March 1958).
63556. Farbenfabriken Bayer Aktiengesellschaft. Process for vatting of vat dyestuffs. (24th January 1958).
63557. Ames Crosta Mills & Company Limited and J. F. Bolton. Improvements in or relating to the surface aeration of liquids. (5th April 1957).
63558. The British Thomson-Houston Company Limited. Improvements relating to the control of nuclear reactors. (2nd April 1957).
63559. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to methods of manufacturing bodies of ferromagnetic materials.
63560. N.V. Philips' Gloeilampenfabrieken. Improvements in or relating to plate-shaped, apertured supports and component parts secured to these supports.
63561. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to moulds.
63562. Creed & Company Limited. Improvements in teleprinter clutches. (27th March 1957).
63563. Ciba Limited. Process for the reduction of pregnene compounds.
63564. Ciba Limited. Process for the manufacture of azo dyestuffs. [Addition to No. 59817].
63565. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Process for the manufacture of α β -unsaturated aldehydes.
63566. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Process for the manufacture of unsaturated ketones.
63567. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Heterocyclic hydrazine derivatives and their preparation.
63568. Kondo Fuhaku Kabushiki Kaisha. Collared shirts.

Alteration of Date

62497. Ante-dated to 13th November 1956 under Section 5 of the Act.

Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933 of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Government of India Book Depot, 8, Hastings Street, Calcutta in due course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office on payment of the necessary charges which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

58025. Executors of James Mills Limited. New or improved means for securing railway and like rails to base plates. Accepted on 22nd March 1958.

Base plate with rail supporting seat on its upper side and one or more clip engaging abutments on its underside the clips comprising superposed arms connected integrally and resiliently.

58471. E. K. Cole Limited. Turret turners. (27th September 1955). Accepted on 20th March 1958.

Incorporating a fine tuning variable condenser whose plates are fixed and are constituted by members fixed to appropriate turret switch contacts.

58477. Imperial Chemical Industries Limited. Process for the manufacture of chromium and cobalt complexes of O:O' dihydroxymonoazo compounds. (30th September 1955). Accepted on 21st March 1958.

Treating naphthalene-2-diazo-1-oxide having sulphonamide group at 5-, 6- or 7-position of naphthalene residue with 5-chloro naphthal, the monoazo compound thus obtained being treated with chromium or Cobalt compound.

58478. Simon-Carves Limited. Improved means for controlling the operation of plant for the grading or separation of raw materials. (24th September 1955). Accepted on 22nd March 1958.

A beam of gamma rays is employed to examine the cleaned product and/or the separate dirt.

58481. Smith Kline & French Laboratories. Method of preparing 10-(aminoalkyl)-trifluoro-methyl phenothiazine derivatives and the products of the method. Accepted on 22nd March 1958.

Condensing trifluoromethyl phenothiazine with a reactive amino alkyl ester or a salt thereof.

58484. N. V. De Bataafsche Petroleum Maatschappij. Lubricating oil compositions. Accepted on 22nd March 1958.

Comprising a major amount of a lubricating oil and a minor amount of an oil soluble polymeric compound and an oil soluble basic metal salt of organic sulphonic acid.

58485. N. V. De Bataafsche Petroleum Maatschappij. Lubricating oil compositions. Accepted on 22nd March 1958.

Comprising a major amount of lubricating oil and minor amount of an oil soluble polymeric compound and oil soluble phosphorous compound containing atleast one P-C linkage.

58486. N. V. De Bataafsche Petroleum Maatschappij. Lubricating oil compositions. Accepted on 22nd March 1958.

Comprising a major amount of a lubricating oil and a minor amount of an oil soluble polymeric compound and oil soluble metal salt of a carbocyclic carboxylic acid.

58488. Chas. Pfizer & Co. Inc. Antibiotic compositions. Accepted on 24th March 1958.

Comprises an antibiotic containing powder which when dissolved in milk exhibits a pH of at least 4.

58499. A. Buttica, C. Tesage and H. Dembowski. Method and apparatus for controlling a flow of fibrous material. Accepted on 24th March 1958.

The flow of fibres to be controlled is passed between two metallic plates forming a measuring condenser.

58511. Westinghouse Brake & Signal Company Limited. Driver's brake control device for electro-pneumatically controlled fluid pressure braking apparatus. (7th October 1955). Accepted on 26th March 1958.

Cams mounted on control spindle actuate valves to control communication to conduits.

58520. Grob & Co. Aktiengesellschaft. Heddle shafts for looms with fixedly mounted rails. Accepted on 26th March 1958.

A shaft having fixedly attached rails for fling healds wherein the ends of said rails are resiliently bendable away from the shaft and having latches.

58525. Preformed Line Products Company. A suspension system for linear bodies, such as electrical transmission lines, cables and the like. Accepted on 22nd March 1958.

Protuberating means provides two bulges along the length of the cable to which helically preformed rods are applied held by half bearing shoes of complementary construction.

58578. Ing. Bretislav Novotny. Slide valve arrangement for the suction control in two-stroke engines. Accepted on 22nd March 1958.

Webs of the crank shaft form the distributing member and the inlet of the gas takes place on the circumference of the cylindrical surface of the crank webs.

58622. Hercules Powder Company Incorporated. Process for working up polyolefins. (19th April 1956). Accepted on 24th March 1958.

The crude polymer or suspension thereof is subjected to hydrolysis in an alkaline medium by steam distillation.

58747. N.V. Nederlandsche Combinatie Voor Chemische Industrie and Laboratoria Pharmaceutica Dr. C. Janssen N.V. Improvements in or relating to new analgesically active substituted alpha, alpha-diphenyl-γ-amino-butiramides and the manufacture thereof. Accepted on 26th March 1958.

Reacting aminoalkylhalide with alkalimetal compound of a diphenylacetamide derivative.

58750. Diamond Alkali Company. Mechano-chemical method for the treatment of molten metal. Accepted on 24th March 1958.

Subjecting a shallow stream of molten metal to turbulent flow in a treating zone.

58870. Council of Scientific and Industrial Research. A process for the isolation of the cardioactive glycosides of digitalis. Accepted on 26th March 1958.

Treating digitalis glycosides tannates with α salt of barium, copper, manganese, zinc or ion exchange resin and subjecting the mixture of glycosides to chromatography over aluminium.

58871. PECHINEY Compagnie de Produits Chimiques et Electrometallurgiques. Process and apparatus for enriching titanium ores. Accepted on 20th March 1958.

By heating a mixture of TiO₂ containing ore with carbon in three stages i.e. first at 400°—1300°C, then at 1600°—2500°C and finally at 1200°—2000°C.

58882. Societe Des Usines Chimiques Rhone-Poulenc. Improvements in or relating to phenthiazine derivatives. [Addition to No. 55752]. Accepted on 26th March 1958.

Introducing at 10-position of phenthiazine ring a 2:4-bis-dimethylamino-1-butyl group.

59075. C. F. Olsson. A method of securing a sleeve to a member fitting in the sleeve and joints effected by such method. Accepted on 24th March 1958.

Pipe or pipes are inserted into the sleeve and means for deforming the sleeve permanently by tensile stress.

59257. J. R. Gupta. Automatic diagnosis & treatment box. Accepted on 22nd March 1958.

Comprising three sections each of two portions, one for list of symptoms and other divided into horizontal and vertical chambers by plurality of partitions for cards slips having thereon disease name and its symptoms.

59305. Dorr-Oliver Incorporated. Method and means for introducing solids-containing feed liquid into settling, clarifying and like apparatus. Accepted on 22nd March 1958.

The feed liquid enters the feed well as a plurality of streams.

59556. The British Thomson-Houston Company Limited. Improvements in vacuum jackets for electric discharge lamps. (7th February 1956). Accepted on 24th March 1958.

Inner wall centred with respect to outer wall by metal frame engaging opposite peripheries of walls and to which is secured at least one member carrying getter material and located to confine getter vapour to end portions of walls of the jacket.

59557. The British Thompson-Houston Company Limited. Improvements relating to cathode ray tube display apparatus. (7th February 1956). Accepted on 24th March 1958.
Comprising time base generator, a reference time scale generator, means operable at will whereby first said generator is synchronised with signal and means operable at will whereby first and second-said generator be synchronised, both synchronising means comprising variable delay circuits whereby different portions of both of signal waveform and of the time scale be displayed on the screen.
59807. The Plessey Company Limited. Improvements in or relating to gramophone record changing mechanisms. (6th March 1956). Accepted on 21st March 1958.
Wherein centre spindle has longitudinal slot with actuating rod of record release mechanism.
59814. Birlite Batteries Limited. Improvements in or relating to electric accumulators. Accepted on 20th March 1958.
Positive element comprises lead oxide applied on a cylindrical or like surface of lead and negative element surrounding positive.
59927. Council of Scientific and Industrial Research. A process for the preparation of pentadecane-1:15-dicarboxylic acid or its ester suitable for the preparation of dihydrocivetone. Accepted on 21st March 1958.
Condensing an ester of omega hydroxy or acetoxy stearic acid with a Grignard reagent and oxidising the alcohol formed and esterifying the product.
60087. Polygram Casting Co. Limited. Apparatus for replenishing with pulverulent material a receptacle in which such material is kept under air pressure for delivery into core boxes, mould patterns or the like. (3rd April 1956). Accepted on 22nd March 1958.
Comprises a first hopper for holding the material and a similar second hopper connected to the first, both hoppers being placed under gaseous pressure for discharging the material.
60459. Union Carbide Corporation. Compositions containing solid solutions of titanium compounds and process of producing same. Accepted on 21st March 1958.
Titanium oxide titanium carbide and free metallic iron.
60567. Diamond Alkali Company. Physical-chemical method for the treatment of molten metals. [Addition to No. 58750]. Accepted on 24th March 1958.
Subjecting a continuous stream of molten metal to a turbulent flow in a spiral path and contacting the metal with a treating agent.
60692. J. Danek and Kovoliz narodni podnik. Improvements in and relating to pneumatic brakes of rail vehicles. Accepted on 22nd March 1958.
Air passing between the main brake line and the auxiliary tank during replenishing of the auxiliary tank is controlled depending upon the difference in pressure between the main line and the auxiliary tank.
60721. Veb. Maschinenfabrik Polysius. Treatment of cement sludge in a rotary kiln. Accepted on 22nd March 1958.
Kiln waste gases are adapted to pass through a screen made of drops of sludge material.
61195. M. H. Knoch. Hygienic device for cleansing the vagina. Accepted on 22nd March 1958.
Comprising a flexible ball and a tube, said tube having two channels.
61437. Mechanical Products Inc. Improvements in and relating to electric circuit breakers. Accepted on 21st March 1958.
With thermostatic element actuatable due to overload current to permit breaker contacts to move to open position and the thermostatic element not actuated when breaker is manually actuated to open or close contacts.
61460. Vereinigte Österreichische Eisen-und Stahlwerke Aktiengesellschaft. Bearing metals. Accepted on 22nd March 1958.
Alloy containing Zn/Al/Cu is subjected to heat treatment.
61593. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to ferro-magnetic materials. Accepted on 26th March 1958.
Having composition of formula

$$\text{Ba}(4-a-b-c) \text{Sr}_a \text{Pb}_b \text{Ca}_c \text{Me} \text{ (2-d-e-f) Co}_d \text{Cu}_e \text{Mn}_f$$
where Me is Fe, Ni, Zn or Mg with crystals of rhombohedral structure.
61714. N. V. De Bataafsche Petroleum Maatschappij. Process and apparatus for the distillation of hydrocarbon mixtures at reduced pressure. Accepted on 20th March 1958.
Hydrocarbon mixture is passed tangentially into a vortex chamber.
61927. N. V. De Bataafsche Petroleum Maatschappij. Apparatus for the preparation of gas mixtures containing hydrogen and carbon monoxide. Accepted on 22nd March 1958.
Provided with a heat exchanger comprising one or more helical cooling pipes which permit the circumfluence of a coolant.
62071. Sandvikens Jernverks Aktiebolag. Improvements relating to percussion drills. Accepted on 24th March 1958.
A member for abutting the rear end of the tube and having a number of abutments, co-operating means capable of locating at different positions.
62084. Etablissement Pour Matériaux De Construction and F. L. Smidth & Co. A/S. Compressing equipment for machines for manufacturing fibro-cement tubes. Accepted on 26th March 1958.
Endless band comprises a plurality of parallel adjacent individual rolling tracks acting each on axial peripheral region of pipe.
62412. J. L. A. See. Improvements in or relating to a scaffolding equipment. Accepted on 22nd March 1958.
Two upright connected by crossbars, these uprights provided with assembling sleeves notched for fitting into other similar frames, one of the crossbars being locked by insertion in the notches of said sleeves.
62414. Societe De Prospection Electrique Procèdes Schlumberger. Improvements in shaped charges serving for the perforation of metal walls. Accepted on 24th March 1958.
The metal casing of the charge is made of compressed metal powder, such as compressed pulverulent iron.
62497. Council of Scientific and Industrial Research. A process for the fractionation and isolation of the individual cardioactive glycosides of digitalis. [Divisional date 13th November 1956]. Accepted on 26th March 1958.
Fractionating glycosides of digitalis by chromatography over alumina.
62558. Jacques Galland & Cie. Safety device for a tensioning device having a counterweight for electric traction power-transmission lines. Accepted on 24th March 1958.
Comprising resiliently yieldable means carried by a support secured to anchor-post of power-supply line and urges winch toward the catch or abutment through the medium of a crank controlling the link pivoted to one of the branches of the fork in which the winch is journaled.
62565. V. G. Reddiar. Plough. Accepted on 20th March 1958.
Yoke bar handle, and blade connected together by a connecting piece having a projection resting against yoke bar and a rearward extension member secured to the handle.

Opposition Proceedings

(1)

An opposition has been entered by McGregor & Balfour Ltd. to the grant of a patent on application No. 59589 made by Timber Box Manufacturing Company.

(2)

An opposition has been entered by Dhiraj Pen Mfg. Co. Private Ltd., to the grant of a patent on application No. 57472 made by C. L. Savara.

(3)

An opposition has been entered by D. N. Chaudhuri, to the grant of a patent on application No. 60528 made by Barclay-Stuart (Electronics) Limited.

(4)

The application for a patent No. 56910 made by Plodari Francesco Prima Fabbrica Italiana Serrature in respect of which an opposition was entered by Godrej & Boyce Mfg. Co. Private Ltd. as notified in Part III, Section 2 of the Gazette of India dated 18th January 1958, has been treated as abandoned.

Patents Sealed

56174. 57079. 57104. 57128. 57684. 58506. 58535. 59133. 59348. 60792.

Amendment Proceedings

(1)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that Socony Mobil Oil Company, Inc. a Corporation organized and existing under the Laws of State of New York, U.S.A. of 26 Broadway, New York, United States of America, Manufacturers of Petroleum Products, seek leave to amend the description and claims in the specification in respect of Patent application No. 56512. Any person desirous of opposing the application for amendment should at any time within 3 months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(2)

The amendment proposed by Dr. Karl Ziegler in respect of Patent application No. 55135 as advertised in the Gazette of India Part III, Section 2 dated the 14th December 1957 has been allowed.

(3)

The amendment proposed by The Bristol Aeroplane Company Limited in respect of Patent application No. 56064 as advertised in the Gazette of India Part III, Section 2 dated the 7th December 1957 has been allowed.

Registration of Assignments, Licences, etc.

Assignments, licences or other transactions affecting the interests of the original patentees have been registered in the following cases. The number of each case is followed by the names of the parties claiming interest:—

22149—The South India Rubber Works.

Renewal Fees Paid

25281. 26344. 27401. 27507. 27574. 28009. 28010. 28034. 28423.
29709. 29852. 30313. 30673. 30839. 31052. 31484. 31485. 32322.
